

Basic Pond Management Program

Have questions about your pond? Do you know about its water quality for proper management, fish biology or weed control needs? If so, plan on attending the Basic Pond Management Program hosted by the Lexington Soil and Water Conservation District.

Dr. Cory Heaton, State Extension Wildlife Specialist, will present the program on Basic Pond Management. Dr. Heaton has conducted numerous Pond Management Programs and Clinics. His presentation will highlight Pond Water Quality, Fish Biology and Management and Aquatic Weed Management.

The cost of the Basic Pond Management Program is \$10.00. Preregistration is required.

Last day for registration is April 2, 2019.

DATE AND LOCATION:

Thursday, April 4, 2019
6:30 pm
Lexington County
